INDEPENDENT AUDITOR'S REPORT

September 27, 2006

Board of Education
Johannesburg-Lewiston Area Schools
Johannesburg, Michigan 49751

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Johannesburg-Lewiston Area Schools as of and for the year ended June 30, 2006, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Johannesburg-Lewiston Area Schools' management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Johannesburg-Lewiston Area Schools, as of June 30, 2006, and the respective changes in financial position, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, I have also issued my report dated September 27, 2006 on my consideration of Johannesburg-Lewiston Area Schools' internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of my audit.

The management's discussion and analysis and budgetary comparison information on pages 3 through 6 and pages 23 through 26 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Johannesburg-Lewiston Area Schools' basic financial statements. The introductory section, and combining non-major fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining non-major fund financial statements have been subjected to the auditing procedures applied by me in the audit of the basic financial statements and, in my opinion, based on my audit are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section has not been subjected to the auditing procedures applies in the audit of the basic financial statements and, accordingly, I express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management discussion and analysis, a requirement of GASB 34, is intended to be the Johannesburg-Lewiston Area Schools District ("the District") Management's discussion and analysis of the financial results for the year ended June 30, 2006. The intent of this discussion and analysis is to provide a look at the district's performance and current position. Readers should also review the notes to the financial statements and the financial statements to enhance their understanding of the district's financial performance.

FINANCIAL HIGHLIGHTS

The overall financial condition of the district remains strong. All goals related to financial activities have been met in the past year. If current revenue and expenditure patterns can be maintained, the resources for the following year will be available.

The assets of the Johannesburg-Lewiston Area Schools District exceeded its liabilities at the close of the most recent fiscal year by \$3,797,535 million (net assets).

The district's total net assets increased by \$242,963 in the 2005/06 school year.

At the end of the current fiscal year, the fund balance for the District's General Fund is \$660,363.

USING THE ANNUAL REPORT

Generally accepted accounting principles (GAAP) according to GASB 34 requires the reporting of two types of financial statements: District Wide Financial Statements and Fund Financial Statements.

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole (government-wide statements), and then proceed to provide an increasingly detailed look at specific financial statements (fund financial statements). Also included are various notes to the financial statements. The audit also contains supplemental information in addition to the basic financial statements.

Reporting the District as a Whole – The Statement of Net Assets and Statement of Activities

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the district as a whole and about its activities in a manner to help address this question. These statements include all assets and liabilities of the District using the accrual basis of accounting similar to the accounting used by the private sector. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid.

The two statements report the District's net assets and any changes in them. The change in net assets provides the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, political conditions on a State level, student enrollment growth, quality of local service, and facility improvements prior to arriving at any conclusion regarding the overall health of the District.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds, not the district as a whole. The fund statements are formatted to comply with the legal requirements of the Michigan Department of Education's "Accounting Manual". The two types of funds: governmental funds and fiduciary funds use different accounting approaches as further discussed in the notes to the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Governmental Funds

Most of the District's activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. Governmental fund information helps you determine whether there are more or less financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental funds is reconciled in the basic financial statements.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Table 1 provides a summary of the District's net assets as of June 30, 2006 and June 30, 2005.

Total Expenses	<u>8,635,393</u>	<u>8,981,382</u>
Change in Net Assets	<u>\$ 242,963</u>	<u>\$ (324,933)</u>

As reported in the statement of activities the cost of all governmental activities for the year was \$8,365,393. While \$5,505,155 in revenue was generated directly from local taxpayers, another \$142,228 was generated through "charges for actual services" to local districts, or individuals that benefited directly from our services. State, federal, other regional grants and programs brought \$915,168 to the district. The district received \$2,168,088 in state education funding and just over \$147,717 in other miscellaneous sources, inclusive of investment earnings. Net assets for the year ending June 30, 2006 increased by \$242,963.

MAJOR GOVERNMENTAL FUNDS BUDGETING AND OPERATING HIGHLIGHTS

The District's budgets are prepared in accordance with Michigan Law. The most significant budgeted fund is the General Fund. During the fiscal year of 2005/06 the District amended the budgets of these major governmental funds twice. This has been the normal business practice of the district. Due to the timing of grant awards and pupil counts, the general fund budget could change significantly from the beginning to the end of the year.

General Fund

The General Fund revenues were lower than expenditures in the past year of operations by \$54,837. The district has evaluated expenditures in all operational areas in order to make budgetary cuts if necessary.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The District's assets have accumulated \$7,541,615 of depreciation. Our capitalized assets include our buildings, land, equipment and transportation fleet. This year saw a \$408,435 decrease in Net Capital Assets. A categorized listing of the assets is below.

Long Term Debt

The District owes \$7,139,291 on loans that will be paid over the next eleven years. This is a decrease in outstanding debt of \$877,320 or 10.94%. More detail is shown on pages 20-21 in the Notes to the Financial Statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The economy of the State of Michigan has dramatically slowed and forecasts project shortages in both the State's General Fund and the School Aid Fund for the upcoming year. The exact implications the shortages will have on the District are unknown. Our budgets were prepared with these factors in mind. We also are dependent on student counts which vary from year to year, for our foundation allowance.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Johannesburg-Lewiston Area Schools conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the School District.

REPORTING ENTITY

The school district is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate, component units of the School District. Based on the application of the criteria, the School District does not contain any component units.

DISTRICT-WIDE AND FUND FINANCIAL STATEMENTS

The district-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's district-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

District-Wide Financial Statements - The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided; and (2) operating grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted state aid.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the District.

Fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

The School District reports the following major governmental funds:

General Fund - The General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

2004 Refunding Bonds Debt Retirement Fund – The 2004 Refunding Bonds Debt Retirement Fund is used to record tax, interest, and other revenue for the payment of general long-term debt principal, interest, and related costs.

Additionally, the District reports the following non-major governmental types:

Special Revenue Funds - Special Revenue Funds are governmental funds used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes. The District's Special Revenue Funds include the Food Service and Athletics Funds. Any operating deficit generated by these activities is the responsibility of the General Fund.

The 2002 Debt Fund, Durant Debt Fund and 2002 Capital Projects Fund are also non-major funds operated by the school district.

Fiduciary Funds – The School District maintains an Agency Fund to record the transactions of student groups for school and school-related purposes. The funds are segregated and held in trust for the students.

ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY

Cash and Investments – Cash and investments include cash on hand, demand deposits, and savings accounts.

Receivables and Payables – In general, outstanding balances between funds are reported as "due to/from other funds."

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

All trade and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 31 and the related property taxes are levied and become a lien on December 1 of the following year. These taxes are due on February 14 with the final collection date of February 28 before they are added to the county delinquent tax rolls. The County operates a delinquent tax revolving fund and normally pays to the District all current taxes annually prior to June 30.

Restricted Assets – The fund balance in the debt service fund is shown as a restricted fund balance. This balance can only be used to service the debt.

Capital Assets – Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental column in the district-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings, building additions, and land improvements	10-50 years
Buses and other vehicles	7-15 years
Furniture and other equipment	2-15 years

Long-Term Obligations – In the district-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of net assets.

Fund Equity – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Accounting Change – Effective July 1, 2003, the School district implemented the provisions of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* (GASB No. 34) along with all related statements and interpretations.

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information – Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America and state law for the general and special revenue funds. All annual appropriations lapse at the fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year.

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

Excess Expenditures Over Appropriations in Budgeted Funds - The School District is required under Public Act 621 of 1978 to adopt (pass) a budget (General Appropriations Act) for the General Fund and Individual Special Revenue Funds. The District complied in all areas except the following expenditure areas which exceeded budgeted amounts:

<u>Fund/Function</u>	<u>Total Budget</u>	<u>Actual Expenditures</u>	<u>Budget Variance</u>
General Fund			
Instruction	\$ 4,522,116	\$ 4,524,869	\$ (2,753)
Supporting Services	\$ 2,846,131	\$ 2,861,124	\$ (14,993)

NOTE 3 - CASH AND INVESTMENTS

The captions on the combined balance sheet related to cash and investments are as follows:

	<u>Imprest Cash</u>	<u>Cash/checking and Savings</u>	<u>Total</u>
Governmental Activities	\$ 210	\$ 370,835	\$ 371,045
Agency Funds	-	112,761	112,761
	<u>\$ 210</u>	<u>\$ 483,596</u>	<u>\$ 483,806</u>

Deposits - At year-end, the carrying amount of the District's deposits was \$483,596 and the balance was classified as to risk as follows.

Insured	\$ 373,092
Uninsured – Uncollateralized	110,504
	<u>\$ 483,596</u>

Investments – Act 217, PA 1982, authorized the School District to deposit and invest in the following:

- a. Bonds, bills, and other direct obligations of the United States or its agencies.
- b. Certificates of deposit and other savings instruments issued by a federally insured bank, savings and loan or credit union maintaining an office in Michigan.
- c. Commercial paper rated prime at the time of purchase and maturing not more than 270 days after the date of purchase.
- d. Mutual Funds comprised of investments which are legal for direct investment by local units of government in Michigan.
- e. U.S. Government or federal agency obligation repurchase agreements.

The Board of Education is authorized to designate depositories for District funds, and the funds are invested in accordance with State of Michigan statutory authority

Credit Risk

State law limits investments in certain types of investments to a prime or better rating issued by nationally recognized statistical rating organizations (NRSRO's). There were no investments at June 30, 2006.

NOTE 3 - CASH AND INVESTMENTS (CONTINUED)

Interest Rate Risk

The School District has not adopted a policy that indicates how the School District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by limiting the weighted average maturity of its investment portfolio to less than a given period of time. There were no investments at June 30, 2006.

Concentration of Credit Risk

The School District has not adopted a policy that indicates how the District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the District's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. There were no investments at June 30, 2006.

Custodial Credit Risk

The School District has not adopted a policy that indicates how the District will minimize custodial credit risk, which is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments of collateral securities that are in possession of an outside party. There were no investments at June 30, 2006.

NOTE 4 – RECEIVABLES

Receivables as of year-end for the School District's individual major funds and the other nonmajor governmental funds are as follows:

	<u>General</u>	<u>Other Funds</u>	<u>Total</u>
Receivables			
Taxes	\$ 36,642	\$ 606	\$ 37,248
Accounts	15,006	2,191	17,197

Net Receivables	<u>\$ 567,238</u>	<u>2,797</u>	<u>\$ 570,035</u>

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, deferred revenue consists of grant and categorical aid payments received prior to meeting all eligibility requirements and other items totaling \$40,017.

NOTE 8 - DEFINED BENEFIT PENSION PLAN

All District full-time employees participate in the Michigan Public School Employees' Retirement System, ("System"), a cost-sharing multiple-employer public employee retirement system. The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to the system at 7150 Harris Drive, P.O. Box 30673, Lansing, MI 48909-8103.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2006

NOTE 8 - DEFINED BENEFIT PENSION PLAN – (CONTINUED)

All full-time employees of the District are required by law to participate in the System. All benefits vest after 10 years of service. Basic plan members may retire at age 55 with 30 years of credited service, or at age 60 with 10 or more years of credited service. A Member Investment Plan (MIP) member may retire at any age with 30 years of credited service or at age 60 with 5 years of service. Both basic and MIP plan members may retire at age 55 with 15 years of service and receive reduced early retirement benefits. Benefits are paid monthly over the member's or survivor's lifetime and are equal to 1.5% of the member's final average compensation times the member's years of credited service. The final average compensation period for basic members is 60 consecutive months and for MIP members is 36 consecutive months. The system also provides health, dental and vision insurance coverage for retirees.

Member Investment Plan (MIP) members enrolled in MIP prior to January 1, 1990 contribute at a permanently fixed rate of 3.9% of gross wages. Members first hired January 1, 1990 or later contribute at various rates depending on school fiscal year compensation. Basic plan members make no contributions. The District was required to contribute 16.34% of participant's salary to the System for the fiscal year ended 6/30/05, and the State of Michigan is responsible for any further contributions necessary to keep the fund actuarially sound. The School District's contributions to the MPSERS plan for the years ended June 30, 2006, 2005, and 2004 were \$661,192, \$609,865, and \$562,184.

Post-Employment Benefits

Under the MPSERS Act, all retirees have the option of continuing health, dental and vision coverage. In prior years the State pre-funded these benefits using the entry age actuarial cost method. Retirees having this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10% of the monthly premium amount for the health, dental and vision coverage. These contributions are deducted from the retirees monthly pension. No additional contributions are required from the District on these post-employment benefits. The 16.34% noted above includes these costs.

NOTE 9 - RISK MANAGEMENT

The School District participates in the MASB-SEG Property and Casualty Pool and Workers Compensation Pool.

The MASB-SEG Property/Casualty Pool, Inc. was created on May 23, 1985 and organized under Public Act 138 of 1982 as amended, as a governmental group property and casualty self-insurance pool. Approximately 375 educational institutions within the State of Michigan participate in the Pool.

The Pool limits the maximum net loss that may arise from large risks or in concentrated areas of exposure by reinsuring certain levels of risks with other insurers or reinsurers. The Pool purchases excess liability coverage from one or more insurers or reinsurers to provide 100 percent coverage at each insured level.

NOTE 10 – SUBSEQUENT EVENT

On April 17, 2006 the Board of Education approved the annual borrowing resolution in an amount not to exceed \$1,500,000. The School District borrowed those funds July 6, 2006.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

September 27, 2006

Board of Education
Johannesburg-Lewiston Area Schools
Johannesburg, Michigan 49751

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Johannesburg-Lewiston Area Schools as of and for the year ended June 30, 2006, which collectively comprise the Johannesburg-Lewiston Area Schools' basic financial statements and have issued my report thereon dated September 27, 2006. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Johannesburg-Lewiston Area Schools' internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Johannesburg-Lewiston Area Schools' financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

I noted certain matters that I reported to management of Johannesburg-Lewiston Area Schools in a separate letter dated September 27, 2006.

FINANCIAL AUDIT COMMENTS

September 27, 2006

Board of Education
Johannesburg-Lewiston Area Schools
Johannesburg, Michigan 49751

I have audited the basic financial statements of Johannesburg-Lewiston Area Schools, Johannesburg, Michigan, for the year ended June 30, 2006, and have issued my report thereon dated September 27, 2006. My report is unqualified.

I have conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

The management of Johannesburg-Lewiston Area Schools, Johannesburg, Michigan is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of basic financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

In planning and performing my audit of the basic financial statements of Johannesburg-Lewiston Area Schools, Johannesburg, Michigan, for the year ended June 30, 2006, I obtained an understanding of the internal control structure. With respect to the internal control structure, I obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and I assessed control risk in order to determine my auditing procedures for the purpose of expressing my opinion on the basic financial statements and not to provide an opinion on the internal control structure. Accordingly, I do not express such an opinion.

I noted certain immaterial matters involving the internal control structure and other matters that I detail for your attention below.

BUDGETS

The School District is required under Public Act 621 of 1978 to adopt (pass) a budget (General Appropriations Act) for the General Fund and Individual Special Revenue Funds. The District complied in all areas except the following expenditure areas which exceeded budgeted amounts:

<u>Fund/Function</u>	<u>Total Budget</u>	<u>Actual Expenditures</u>	<u>Budget Variance</u>
General Fund			
Instruction	\$ 4,522,116	\$ 4,524,869	\$ (2,753)
Supporting Services	\$ 2,846,131	\$ 2,861,124	\$ (14,993)

FEDERAL PROGRAMS

COMPREHENSIVE SCHOOL REFORM GRANT

The entire grant in the amount of \$86,000 was requested in July of 2005, immediately after approval. Federal guidelines require the district to request funds as needed, which normally means to meet cash needs within thirty days. In addition, the funds were not all spent by June 30, 2006 so \$32,224 is recorded as deferred revenue.

Several expenditures paid from this grant were to consultants for services that were to be provided throughout the school year. Some services were not being performed until March and April of 2006. The payment was made in advance of the services being performed. The Michigan Department of Education program consultants were aware of these procedures.

STUDENT ACTIVITY / FIDUCIARY ACCOUNTS

Expenses are still being paid out of a student activity account which should be expenditures of the district general fund. All disbursements from this fund should be for activity items only and not expenditures which should be classified in one of the district's funds.

PROPERTY TAX REVENUE / STATE AID

The present system for assuring that each school district gets its entire foundation allowance (which is a combination of property taxes and State Aid) is, in my opinion, flawed. With all of the Tax Tribunal adjustments, Board of Review adjustments and homestead/non-homestead adjustments it is very important that each district reconcile taxable values, as reported on the Michigan Department of Education website, monthly.

Changes that occur on the web site are postings made by the county treasurers. These changes are then posted to your State Aid Status Report which directly affects the State Aid funds received each month. Reconciling those changes monthly is important.

The best approach is to print the MDE taxable value data each month and then agree any changes in these reports to page two of your monthly status report.

For the fiscal year ended June 30, 2006 substantial amounts were deducted from your tax collections but the offsetting entries were not timely posted to the MDE website by the Counties.

MATERIAL WEAKNESS

A material weakness is a reportable condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, I believe none of the matters described above are material weaknesses.

This report is intended solely for the information and use of the Johannesburg-Lewiston Area Schools management, Board of Education, the Michigan Departments of Treasury and Education, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
